EMPLOYMENT

University of Michigan, Ann Arbor, United States

September 2022 - Present

Research Fellow, Department of Industrial and Operations Engineering

Mentor: Siqian Shen, Ruiwei Jiang

EDUCATION

Huazhong University of Science and Technology, Wuhan, China

September 2017 - June 2022

Ph.D. in Electrical Engineering

Thesis: “Power System Flexible Operation by Using Continuous-Time Optimization Theory”

Supervisor: Jinyu Wen, Xiaomeng Ai

Huazhong University of Science and Technology, Wuhan, China

September 2013 - June 2017

B.S. in Electrical Engineering and Automation

RESEARCH AREAS

Theories: Continuous-time optimization, robust optimization, bilevel optimization, machine learning

Applications: Flexibility & resilience, power/energy system, energy storage, power market, energy bank

HONORS AND AWARDS

- Frontrunner 5000 top article, Institute of Scientific and Technical Information of China, 2023
- UMPDA Conference Award, University of Michigan, 2023

Awards recieved as a PhD student:

- Outstanding Graduate, Huazhong University of Science and Technology, 2022
- National Scholarship for Postgraduate, Ministry of Education, China, 2020
- Excellent Oral Presentation, China Electrotechnical Society, 2020
- Excellent Paper Award, iSPEC 2019, IEEE Power & Energy Society, 2019

PUBLICATIONS

Papers under Review/Revision

- [R1] **Bo Zhou**, Ruiwei Jiang, Siqian Shen, “Learning to Solve Bilevel Programs with Binary Tender,” submitted, 2023.

RESEARCH EXPERIENCE

Theories and Computational Algorithms for Optimizing Bilevel Mixed-Integer Nonlinear Programs

Funded by U.S. Air Force Office of Scientific Research

Sep. 2023 - present

Extreme-Scale Stochastic Optimization via Learning-enhanced Decomposition and Parallelization

Funded by U.S. Department of Energy

Sep. 2022 - Aug. 2023

Adaptive Extreme Scenario Method for Unit Commitment with Wind Power Ramp Event

Funded by National Natural Science Foundation of China

Jan. 2018 - Dec. 2020

Robust Coordinated Planning of Energy Storage in Integrated Electricity and Natural Gas System

Funded by National Natural Science Foundation of China

Jan. 2018 - Dec. 2020

Configuration Optimization and Control Strategy of Energy Storage Stations for the Power System

Funded by State Grid Corporation of China

Jan. 2018 - Dec. 2019

Key Technologies in Characteristic Analysis and Security Defense for HVDC Receiving-End Power Grid

Funded by State Grid Henan Electric Power Company

Aug. 2016 - Dec. 2017

Key Technologies of Distributed Renewable Energy Power Generation Clustering and Consumption

Funded by National Key R&D Program of China

Jul. 2016 - Jun. 2019

PRESENTATIONS

Invited Talks

- [T3] “Risk-Averse Reinforcement Learning for Real-Time Economic Dispatch,” 2023 INFORMS Annual Meeting, Phoenix, United States, October 2023.
- [T2] “Frequency Stability-Constrained Unit Commitment: Tight Approximation using Bernstein Polynomials,” 2023 INFORMS Annual Meeting, Phoenix, United States, October 2023.
- [T1] “Differential algebraic equation-constrained frequency-secured stochastic unit commitment,” SIAM Conference on Optimization (OP23), Seattle, U.S., June 2023.

Conference Presentations

- [P5] “Differential Algebraic Equation-constrained Frequency-secured Stochastic Unit Commitment,” 2023 IEEE Power & Energy Society General Meeting, Orlando, United States, July 2023.
- [P4] “Continuous-time modeling based robust unit commitment considering beyond-the-resolution wind power uncertainty,” the 9th Frontier Academic Forum of Electrical Engineering, Xi’an, China, August 2020 (Excellent Oral Presentation).
- [P3] “Continuous-trajectory robust unit commitment considering beyond-the-resolution uncertainty,” 2020 IEEE Power & Energy Society General Meeting, Montreal, Canada, August 2020.
- [P2] “Steady state security region considering post contingency cascaded DC commutation failure,” 2019 IEEE Sustainable Power and Energy Conference, Beijing, China, November 2019.
- [P1] “Mixed-integer second-order cone programming taking appropriate approximation for the unit commitment in hybrid ACDC grid,” the 6th International Conference on Renewable Power Generation, Wuhan, China, October 2017.

MEMBERSHIP AND SERVICES

Professional Membership

- Society for Industrial and Applied Mathematics (SIAM), Member, 2023 - present
- Institute for Operations Research and the Management Sciences (INFORMS), Member, 2022 - present
- Institute of Electrical and Electronics Engineers (IEEE), Member, 2019 - present
